Executive Summary

D8.8 is the first of three Reports by the Ethics Advisory Board and the Independent Ethics Advisor due at M12.

The common goals, and separate roles of the Ethics Advisory Board and the Independent Ethics Advisor are defined. The goals are those of monitoring compliance with relevant ethics, privacy and legal standards and of contributing to a sustainable ethics framework through ethics and privacy by design.

The reference materials (documents, deliverables) and the ethics monitoring instruments developed within the project are listed. The instruments are based mainly on checklists or self-assessments which can be at a consortium or individual partner level.

Reports by the Ethics Advisory Board and the Independent Ethics Advisor are included. The Ethics Advisory Board reports about the meetings and their outcomes. The Independent Ethics Advisor, Dr. Penny Duquenoy, provides an assessment of what has been accomplished in year one of the project.
